

## UCSF Postgraduate Course and Poster Session Schedule

### Tuesday, February 1

1:00 - 1:30 pm EST	<b>The completely un-routine: Rare fetal and maternal diseases</b> <i>Fetal hydrops</i> Teresa N. Sparks
--------------------	--

### Wednesday, February 2

8:00 am - 2:00 pm EST	<b>Prenatal genetics for the MFM physician in 2022 and beyond</b> Course co-director  <b>Genetic evaluation of fetal anomalies: How to choose the right test</b> <i>Case-based classification of genetic variants</i> Teresa N. Sparks
-----------------------	---

11:00 am - 12:00 pm EST	<b>Prenatal genetics for the MFM physician in 2022 and beyond</b> Course speaker  <b>Prenatal phenotyping</b> <i>Case-based classification of genetic variants</i> Mary E. Norton
-------------------------	--

### Thursday, February 3

10:30 am - 12:00 pm EST	<b>Poster Sessions</b>  214. <i>Trends in and predictors of episiotomy and anal sphincter injuries during operative vaginal delivery, 2000-2018</i> Arditi B, Logue T, Staniczenko A, Friedman AM, Wen T.  256. <i>Cost-effectiveness of exome sequencing versus targeted gene panels for prenatal diagnosis of non-immune hydrops fetalis</i> Carmen Avram, Aaron B. Caughey, Mary E. Norton, Teresa N. Sparks  284. <i>National trends in outcomes for neonates with congenital heart disease.</i> Andrikopolou M, Wen T, Simpson L, Miller R, Fuchs K, D'Alton M, Friedman AM  288. <i>Delivery hospitalizations with chronic hypertension complicated by chronic renal or cardiac disease</i> Sheen JJ, Friedman AM, Goffman D, D'Alton ME, Wen T.  362. <i>Evidence-Based Discrimination: a qualitative study of the implementation of the MFMU VBAC Success Calculator.</i> Nichols Rubashkin  384. <i>Trends in transfusion and hysterectomy among birth hospitalizations complicated by postpartum hemorrhage.</i> Corbetta-Rastelli CM, Liu B, Sobhani NC, Arditi B, Goffman D, Friedman AM, Wen T.
1:15 - 3:45 pm EST	<b>Oral Presentations</b>  <i>Association between fetal Hofbauer cells and Air Quality Index in pregnancies exposed to wildfire smoke</i> Emilia Basilio; Stephanie L. Gaw; Amy Padula; Sirirak Buarpung; Joshua F. Robinson
3:45 - 5:15 pm EST	<b>Poster Sessions</b>  396. <i>Dual diagnosis of mental health condition and substance use disorder at delivery and maternal morbidity.</i> Logue TC, Wen T, Friedman AM.

430. *National trends in postpartum readmission risk for venous thromboembolism.*  
Wen T, Arditi B, Sobhani NC, Corbetta-Rastelli CM, Liu B, D'Alton ME, Friedman AM.
526. *Number of Prenatal Visits and Risk for Maternal Morbidity, 2016-2019.*  
Staniczenko A, Arditi B, Wen T, D'Alton M, Friedman AM.
556. *Delivery trends and outcomes in pregnant women with adult congenital heart disease from 2000-2018.*  
Linder AH, Wen T, Purisch S, D'Alton ME, Friedman AM.
561. *Trends in and Outcomes during Delivery Hospitalizations with Inflammatory Bowel Disease.*  
Yu K, Faye A, Wen T, Guglielminotti J, Huang Y, Wright J, D'Alton M, Friedman AM.
565. *Acute postpartum care utilization after expedited postpartum discharge.*  
Panzer A, Reed-Weston A, Friedman AM, Wen T.
617. *National trends in mode of delivery among patients with HIV, 2000-2018.*  
Arditi B, Staniczenko A, Friedman AM, D'Alton ME, Wen T.
712. *Risk factors for obstetric venous thromboembolism stratified by mode of delivery.*  
Oberlin AM, Wen T, D'Alton M, Friedman AM.

#### Friday, February 4

10:30 am – 12:00 pm EST

#### Poster Sessions

883. *Obesity and nulliparous, term, singleton, vertex cesarean delivery rates on the United States county level.*  
Andrikopoulou M, Wen T, Sheen JJ, D'Alton M, Friedman AM.
926. *Cesarean delivery rates among hypertensive birth hospitalizations in urban versus rural hospitals.*  
Buford A, Kadambi A, Ebrahim A, Ebrahim S, Nguyen E, Wen T.
941. *National trends, estimated costs, and predictors of 'never events' following birth hospitalization.*  
Wen T, Corbetta-Rastelli CM, Sobhani NC, Liu B, Arditi B, D'Alton M, Friedman AM.

1:15 – 3:45 pm EST

#### Oral Presentations

58. *Do pregnancy outcomes differ by mode of insulin delivery for type 1 diabetes mellitus?*  
Nasim C. Sobhani; Akshaya Kannan; Nicole K. Tantoco; Sophie Patzek

3:45 – 5:15 pm EST

#### Poster Sessions

1026. *Trends in chronic conditions by maternal age and risk for severe maternal morbidity.*  
Sheen JJ, Friedman AM, Arditi B, Staniczenko A, Goffman D, D'Alton ME, Wen T.
1042. *Trends in substance use disorder at delivery hospitalization and risk for adverse*  
Logue TC, Wen T, Friedman AM.
1094. *Prenatal phenotyping for non-immune hydrops and other abnormal fluid collections*  
Teresa N. Sparks, Billie R. Lianoglou, Sarah L. Downum, Patrick Devine, Ugur Hodoglogil, Jessica Van Ziffle, Mary E. Norton
1097. *Identifying Unique Inflammatory Cytokine Profiles in Maternal-Fetal Dyads with COVID-19*  
Kelsey Loeliger, MD PhD, Veronica Gonzalez, MD, Mary Prah, MD, Joshua F. Robinson, PhD, Dongli Song, MD PhD, Priya Jegatheesan, MD, Stephanie L Gaw, MD PhD.

**Saturday, February 5**

8:00 - 10:30 am EST

**Oral Presentations**

86. *Obstetric and birth outcomes among sexual and/or gender minority patients, California, 2016-2019.*  
 Stephanie A. Leonard; Iman Berrahou; Adary Zhang; Elliott K. Main; Juno Obedin-Maliver

88. *Trends in Unstable Housing and Risk for Adverse Pregnancy Outcomes during Delivery Hospitalizations.*

Anna P. Staniczenko; Timothy Wen; Amalia Gonzalez; Brittany Arditi<sup>1</sup>; Mary E. D'Alton; Alexander M. Friedman

94. *Trends in Fontan pregnancies, mode of delivery, and risk for obstetrical complications.*

Nasim C. Sobhani; Brian Liu; Chiara Corbetta-Rastelli; Anushree Agarwal; Mary E. D'Alton; Alexander M. Friedman; Timothy Wen

**Download Our Mobile App for Physicians**

The Fetal Treatment Center (FTC) mobile app gives physicians:

- **Detailed treatment guidelines** including associated conditions, workups, options for fetal intervention and follow-up.
- **News feed** to keep you informed on our new clinical programs, research, clinical trials and more.
- **Educational videos** describing the conditions we treat.
- **Quick contact information** for a seamless, efficient way to refer patients to our clinic.
